TO START PLAYING IMMEDIATELY

PC

Right click on the desired MP3 link. Select Open. Your computer should automatically open Windows Media Player unless you have another default media player. (There will be other variations to your options depending on your browser. See the * below for further information). Your file will automatically begin downloading in Windows Media. You can listen to your file now.

Mac

Right click on the desired MP3 link below. (If you do not have a right click mouse, you can click your mouse and press the control button on your keyboard at the same time.) Select Download Linked File As... (There will be other variations to your options depending on your browser. See the * below for further information)

Your documents or finder program should then automatically open allowing you to save this file somewhere on your computer. Make sure that you know which folder you are saving this file in and which name you have given the file.

Once you have saved the file, your computer will automatically start downloading the file to that location.

After your download has completed, click on your finder application at the bottom of the screen and navigate to the folder where you saved your file. You should now see your file there. Double click on your file to open it (the default program should be itunes) or right click to select a different program to open your file in.

TO DOWNLOAD MP3 FILE

PC

To download an MP3 file to your PC, right-click on the Download option of the MP3 file and select "Save Target As" if you are using Internet Explorer or "Save Link As" if you are using Firefox.

Next, navigate to the directory where you want the file to be saved. Once the download is complete, you can open the file to play it or transfer it to your MP3 player.

Files may take 30+ minutes to download. If difficulties, please restart computer and start download process again.

Mac

Follow the steps above for playing immediately except at the end do not double click to open the file, instead, transfer your file to your MP3 player.

* With browsers there may be variations in the options when right clicking on the downloadable file link. To open your file you may need to select "Open," "Open in New Window," "Open in New Tab" etc. To Save your file you should select commands such as "Save Target As," "Download Linked File As," "Save Link As," etc.
